

Professional Cookware

Excalibur Stainless, Hercules and Atlas Aluminum, and more...

Adcraft introduces its latest... a full line of NSF certified stainless steel induction cookware. Constructed of premium stainless steel, this cookware has a tri-ply bottom consisting of two layers of stainless steel surrounding an aluminum core. The result is cookware that spreads heat rapidly and evenly providing higher efficiency and reduction of hot spots, which can cause food to burn or cook unevenly. With attractive brushed sides and a polished band across the top and bottom, each piece makes a striking impression. The Titan Series features a complete range of cookware including stock pots, brazier pots, sauce pans, natural and non-stick frying pans.

Atlas™ Aluminum 3003 Fry Pans

Atlas fry pans are made of 3003 aluminum, an alloy that has a similar chemical composition to 1100, but is much harder and lasts much longer. 3003 aluminum fry pans also spread heat quicker than stronger 3004 aluminum fry pans.

Atlas™ Fry Pans (1)

NSF listed. Extra-heavy commercial weight 3.5mm (0.138") 3003 aluminum fry pans. Heavier than standard 8 gauge (0.125") fry pans. Natural finish. Well balanced and contoured, assuring proper control and ease of use. Securely riveted chrome plated handles allows use under broiler. Optional rubber sleeves available.

Atlas Fry Pans

Atlas™ Fry Pans With Excalibur Non-Stick Coating (1)

NSF listed. Same construction as our natural finish 3003 fry pans but with Excalibur™ coating, the most advanced non-stick coating made. The Excalibur coating is an integral part of the metal surface to which it is applied, combining the strength of stainless steel with the low friction, release and corrosion resistance of fluoropolymers. The Excalibur™ coating is property of the Whitford Corporation.

Hercules™ Fry Pans, 3004 Aluminum

Constructed of 3004 Aluminum, their advanced design incorporates the best attributes of all leading commercial fry pans. Providing unsurpassed durability, an added feature is the attachable red silicone rubber sleeve for safe handling up to 400°F for one hour. Choose from two attractive styles, —the Hercules with a highly polished interior for superior product release; and the Excalibur with superior Excalibur™ coating. The Excalibur™ coating is property of the Whitford Corporation.
